My first day of chemotherapy & I was very nervous. Her gentle, soothing massage helped me to be more calm & relaxed. Thank you!

Thank you so much for providing the "massage nurse" service. The gentleman who gave me the massage, is so good at what he does. He is so polite and wonderful. I feel so relaxed & physically and emotionally after the massage. Thank you for the service.

I had edema in both my feet.  
After the massage, the swelling subsided  
and continued to subside.  
My therapist was the best - thanks for  
providing such a great service!
